

The UNAA proudly presents the 4th Annual World Ninja Athlete Games, where the entire world on March 9-17, 2024 will compete on the same course design in pursuit of finding the World's Champions.

Join us in this incredible experience as you and your team compete on the same stage with the entire globe in this Worldwide challenge in hopes of being crowned, a World Champion.

We have adjusted the course so that ALL athletes run the same course. The only adjustment will be the 7U will skip the Laches.

We made it fair for ALL size gyms, so that no gym has to do more laps or go back and forth any more than is required by the larger gyms. This makes it completely fair and equal to all athletes across the globe, regardless of the gym they are participating at.

With over 1000 athletes competing at the same time in 12 different countries, it is truly a test of the Worlds best ninja athletes!

If any blocks or assistance is needed to reach an obstacle or need for climbing truss for younger athletes that cannot reach will be allowed. This will only apply to the start of an obstacle where reaching it for younger athletes is unachievable.
